

# SHIELD 14W BACK-UP ALARM

ECE R10

IP64

PART NUMBER: BA-0119

## KEY FEATURES:

- Sound Output: 97dB (+/- 10dB)
- Max Watt: 14.4W
- Built-in universal flush or hanging mount
- Temperature range: -40 - 185 degrees
- Durable glass-filled nylon housing
- Dust, moisture, and vibration-proof
- Certifications: ECE R10, C-Tick, IP 64D, IP64KD
- 2 year warranty

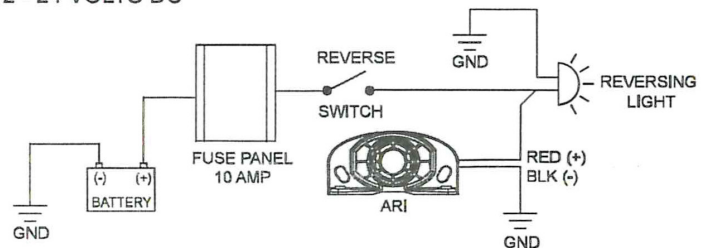

## SPECIFICATIONS:

Dimensions	2.9" H x 5" W x 2.8" D
Warranty	2 years
Input Voltage	12-14VDC
Current Draw	1A
Frequency	700-2800Hz
Sound Output	97bB (+/-10dB)

## WIRING DIAGRAM

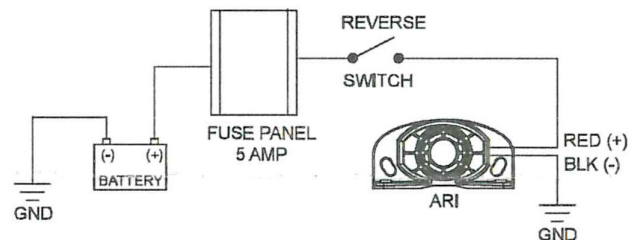

### Connection with fused reverse light switch

12 - 24 VOLTS DC

### Connection with switch

12 - 24 VOLTS DC

DO NOT wire in parallel with a solenoid or relay coil. DO NOT spray any coating material, e.g. paint, undercoating, etc., over the sound opening. DO NOT install the product or its wiring in proximity to ignition wires. Failure to observe these conditions may have an adverse effect on the product's performance.
